CAREER OBJECTIVES

Interested in applying solid statistical knowledge, programming skills, to a challenging role in full stack web development. Passionate about using AWS Services and Data Analysis. Proficient in both frontend and backend technologies.

EDUCATION

2021 - Present Bachelor's Degree at KL University (GPA: 8.85/10.0)
2019 - 2021 Class 12th Board Of Intermediate Education Andhra Pradesh (81%)
2019 Class 10th Board of Secoundary Education Andhra Pradesh (80%)

EXPERIENCE

•Prodigy InfoTech

15th May 2024 - 15th June 2024

Virtual internship in Web Development

During my one-month internship at Prodigy as a Web Development Intern, I had the opportunity to develop and enhance front-end components and build a fully functional weather application. Utilizing my skills in HTML, CSS, and JavaScript, I created responsive and interactive web pages that improved user engagement and accessibility. The weather app project allowed me to integrate real-time data using APIs, ensuring accurate and dynamic updates for users

•AICTE Eduskills Foundation

December 2022 - February 2023

Virtual internship in AWS Cloud

Enthusiastic and motivated learner with foundational experience in AWS Cloud technologies. Familiar with basic concepts of cloud computing, infrastructure as code, and serverless architecture. Experienced in deploying and managing applications on AWS using services such as EC2, S3, Lambda, and CloudFormation.

PROJECTS

•THE STUDENT COUNSELLING MANAGEMENT SYSTEM

Java Full Stack Web Development

Student Counseling Management System facilitating online meetings and generating student reports for seamless communication and support between students and counselors.

- Frontend: HTML, CSS, JavaScript
- Backend: Java (Spring Boot)
- Database: MySQL

•PROJECT MANAGEMENT SYSTEM

Python Full Stack Web Development

Project management application streamlining project tracking, task management, and scheduling for businesses and individuals.

- Frontend: HTML, CSS, JavaScript
- Backend: Python (Django)
- Database: MySQL

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Web Technologies:** HTML, CSS, JS
- **Tools and Frameworks:** Amazon Web Services(AWS), Google Cloud, Excel, PowerBI
- **Full Stack Developer:** Java (Spring Boot) & Python(Django)

CERTIFICATIONS

- **AWS Certified Cloud Practitioner,** AWS
- **Red Hat Certified Enterprise Application Developer,** Red Hat
